WOULD YOU LIKE TO GET MORE CONFIDENT ABOUT YOUR COMMUNICATION SKILLS AND IMPROVE YOUR ITALIAN AT THE SAME TIME?

Italian Without Fear are fun conversation workshops that focus on the participants' **active listening** abilities and help them to become **more confident communicators**.

Participants will learn how to use body language and other resources to get their message across, how to listen more effectively and how to survive embarrassing moments abroad. **The communication skills acquired can be used in any context.**

The workshops are available for False Beginners, Intermediate and Advanced Learners of Italian as a foreign language.

Gioia Caminada, the course facilitator, has over fifteen years of experience in the teaching of Italian and active listening techniques. She is fluent in four languages, holds a BA in foreign languages and a MA in Migration Studies.
